**TITLE:** Business license registers

**DATES:** 1892-1926.

**ARRANGEMENT:** Alphabetical by type of license and then name.

**DESCRIPTION:**

These registers are used to record the issuance of licenses for persons or companies doing business in Salt Lake City in accordance with city ordinances. Prior to 1908, all licenses were recorded together. Three volumes are labeled "License Registers". The 1892-1893 volume contains the name, address, and name of company; amount collected, monthly columns listing amounts, and any remarks. The other two volumes (1906, 1906-1907) contain: the name, address, date, date former licenses expires, application (date, mailed, returned, basis of assessment); license (number, commencing date, date expired); date paid; columns for months (January through December) and amount paid. In 1908, the registers were separated by type of license: License A were liquor licenses, License B were Merchant's Licenses; and License C were miscellaneous licenses. There are four registers for A licenses (1908, 1910-1913; 1916-1917). They are labeled "Assessor's Register for Liquor Licenses A" and except for columns which record payments by quarters rather than month contain the same information as the earlier licenses. There are nine registers for B license (1908- 1910, 1912-1917). Some are labeled "Register of Merchant's Licenses "B" while others are labeled "Assessor's Register of Merchant's Licenses". They contain the same information as the other volumes. There are nine C license volumes (1908-1915, 1917). Some are labeled "Register of Miscellaneous Licenses C" while others are "Assessor's Register of Miscellaneous License". They all contain the same information. There is also a single volume (1917-1925) labeled "License Register" which contains miscellaneous licenses.

**TITLE:** Tax assessment rolls

**DATES:** 1856-1892.

**ARRANGEMENT:** Numerical by ward number, thereunder alphabetical by name.

**DESCRIPTION:**

These volumes record the assessment of real and personal property. They were used for taxing purposes. Individual city assessors assessed and collected property taxes within municipal boundaries. In 1892, the Territorial Legislature changed the law to require county assessors to assess property for city levied taxes (as well as the usual territorial and county taxes) in incorporated areas. All volumes are labeled Assessment Roll and contain the same information: ward number; name; description of real estate; lot number; block number; letter of plat; value of real estate; value of cattle; value of mules; value of vehicles; value of merchandise; value of stock on national banks; value of gold and silver; taxable credits of bonds; money loaned on hand or deposit; value of personal property; total value; amount of tax; amount remitted or abated by Board of Equalization; amount paid and when paid. There is one volume per year for 1856 to 1869 and 1861 to 1869. There are two volumes per year for: 1872 to 1892. One is labeled "original" and contains the initial assessments while the second is the "Duplicate" containing any corrections and listing all payments made on taxes. Volumes 1891 and 1892 are split into two volumes "East of Main Street" and "West of Main Street".

**RETENTION AND DISPOSITION AUTHORIZATION:**

Retention and disposition for this series were specifically approved by the State Records Committee.

**APPRAISAL:**

Historical

This retention is based on the fact that the "duplicate" volume is considered the official assessment roll because it recognizes any changes, corrections, all abatements, and the payments of the taxes. The "original" contains incomplete data and should be destroyed. This practice persists to the present with the county assessor's assessment roll scheduled for 4 years and the treasurer's tax roll as permanent (1/10/86).
