Under current Utah law and the laws of the territorial legislature, individuals desiring to incorporate, were to file and record articles of incorporation with their respective county clerk. Case files are created during the length of a corporation's duration. The case file is generated when companies incorporate within Uintah County and serve as evidence of "due incorporation of the corporation [UCA 16-2]."

Articles of incorporation constitute a contract between the state and corporation, between corporation and stockholders, and between the stockholders and state. The articles of incorporation record the following: names of the incorporators and their places of residence, the length of the corporation's duration, the pursuit of business agreed upon, amount of stock each shareholder receives, description of stock classes, number of kind of corporate officers, and the number of directors necessary to transact corporate business. The series ended in 1961 when the Division of Corporations was created.
