AGENCY: Workers Compensation Fund Division. Data Processing

SERIES: 16620

3

TITLE: Beneficiary master file

DATES: 1981-1990.

ARRANGEMENT: None

DESCRIPTION:

In the event that a claim filed is one involving a fatality, all beneficiary information would be drawn from this file to make the claims payments. It is updated when any claims update transactions are performed. It also interfaces with the Claims Master File when answering inquiries. Includes claim number, name and address, compensation data (current amount and year-to-date totals), and trust information.

STATE RECORDS COMMITTEE STATUS:

This retention was approved by the State Records Committee on 03/01/1987.

FORMAT MANAGEMENT:

The retention and disposition information on this schedule applies to the record copy which can be in any format. The record copy can include different formats. Format management information provided here is for the purpose of managing records that are being either stored by or transferred to Utah State Archives.

Computer data files: Retain in Office until claim is closed and then transfer to magnetic tape.

Computer magnetic storage media: Retain in Tape Library for 3 years and then erase.

APPRAISAL:

This has administrative value only.

PRIMARY CLASSIFICATION:

Private

AGENCY: Workers Compensation Fund Division. Data Processing

SERIES: 16619

3

TITLE: Claims information management system

DATES: 1981-1990.

ARRANGEMENT: None

DESCRIPTION:

The purpose of this system is to compensate all workers and health care providers for any claims they may have or to pay health care providers for therapy or medical services rendered in relation to an on-the-job injury. Medical and compensation claims are entered and kept online. Most of the output from this system is printed out as hard copy and put in the manual claims files. Most of the information is current. No transactional history is maintained on-line or on tape. The software is in COBOL, version 6.40, operating on WANG VS 100. The compensation processing programs were rewritten and put into the system in January 1986. All batch processing operations were rewritten and introduced to the system in January 1986. Includes Beneficiary Master File, Claims Master File, Providers Reference File, and Warrant History Master File. These are records series 16620-16623.

STATE RECORDS COMMITTEE STATUS:

This retention was approved by the State Records Committee on 03/01/1987.

FORMAT MANAGEMENT:

The retention and disposition information on this schedule applies to the record copy which can be in any format. The record copy can include different formats. 3

TITLE: Claims master file

DATES: 1981-1990.

ARRANGEMENT: None

DESCRIPTION:

This is used as a central location for all medical and compensatory information relating to each claim filed with the Workers' Compensation Fund. It interfaces with all the other files in the system to update them or to be updated by them. It provide information for all inquiries made by users regarding claims payments or information about the claimant. Includes claim number, name, address, birthdate, date of injury, injury classification codes, employment data, compensation data (amount and dates), and medical payment data (current amount and year-to-date totals).

STATE RECORDS COMMITTEE STATUS:

This retention was approved by the State Records Committee on 03/01/1987.

AGENCY: Workers Compensation Fund Division. Data Processing

SERIES: 16616

3

TITLE: Job classification code detail file

DATES: 1984-1990.

ARRANGEMENT: None

DESCRIPTION:

When an employer files an application for worker's compensation insurance, they must list all the types of job classifications the business has and the number of employees in each position. These positions are then entered into the computer along with the rest of the application. These jobs are then coded and the rate for charging the employer is determined, in part, from these codes. These codes are then stored separately from the rest of the master file and updated periodically. Includes policy number, reporting period, class code, job description, payroll amount, classification rate, classification type, and class premium.

STATE RECORDS COMMITTEE STATUS:

This retention was approved by the State Records Committee on 03/01/1987.

FORMAT MANAGEMENT:

The retention and disposition information on this schedule applies to the record copy which can be in any format. The record copy can include different formats. TITLE: National Council for Compensation Insurance and Management on Policy
Endorsements reports

3

DATES: 1984-1990.

ARRANGEMENT: None

DESCRIPTION:

This is a statistical report sent to the NCCI. It is used to provide them with data for conducting risk analysis on all classified employee positions in their job classification database. This information is then used to classify the rates of insurance coverage for each position. Includes policy holder's name and address, policy number, code classification, amount of premium paid for each job classification, and a list of all claims filed on that policy.

STATE RECORDS COMMITTEE STATUS:

This retention was approved by the State Records Committee on 03/01/1987.

Computer magnetic storage media: Retain in Tape Library for 0 years and then transfer to State Archives.

APPRAISAL:

Administrative Historical

This has the same value as the claim card files. Secondly, it has evidential value regarding the determination of premiums for policyholders.

AGENCY: Workers Compensation Fund Division. Data Processing

SERIES: 16615

3

TITLE: Policy holder ownership file

DATES: 1984-1990.

ARRANGEMENT: None

DESCRIPTION:

This is a listing of all owners of the corporation. When an update is made of the Policy Holders Master File of any new owners, this files is also updated. This file is then used to create the new endorsements which are added to the manual active policy holder case file. This can have an effect on the determination of premiums, also. Includes name of the owners, dates of coverage, coverage indicator, policy number, and owner number.

STATE RECORDS COMMITTEE STATUS:

This retention was approved by the State Records Committee on 03/01/1987.

FORMAT MANAGEMENT:

3

TITLE: Policy holders management information system

DATES: 1984-1990.

ARRANGEMENT: None

DESCRIPTION:

This system is designed to keep track of all active policies handled by the division. It is used to create invoices for policy payments, calculate deposit requirements, and to determine dividends. In the files, only current information is kept. It prepares hard copy reports for policy holders case files and a tape report for the National Council on Compensation Insurance and Management. A method needs to be found to transfer the permanent information from computer to microfiche without undue human intervention. The best method would be to use computer-output microfiche (COM). However, the policy holder files are being microfilmed which makes it incompatible with the microfiche. All of the reports, except the report to the NCCI, are filed as hard copy in either the claims files or the policy holders files. It is also used to make any endorsements to a policy. The information produced from the computer serves as the document history of the events surrounding management of the policies. It operates on a WANG VS 100 using WANG COBOL and the VS 6.4 operating system. Includes Policy Master File, Policy Holder Ownership File, Job Classification Code Detail File, Policy Holders' Address and Location File, and Report to National Council for Compensation Insurance and Management on Policy Endorsements These are records series 16614-16618.

STATE RECORDS COMMITTEE STATUS:

This retention was approved by the State Records Committee on 03/01/1987.

3

TITLE: Policy holders' address and location file

DATES: 1984-1990.

ARRANGEMENT: None

DESCRIPTION:

This file contains all the different business addresses or locations for all policy holders. As various locations for a business are added to the file, endorsements are created and added to the manual case file. An example of this procedure would be the addition of a new store to the Sunset Sports Retail Chain. The data is also used to determine premiums. Includes policy number, location number, business name, address, and phone number.
