AGENCY: Labor Commission. Division of Boiler, Elevator, and Coal Mine Safety

SERIES: 21895

3

TITLE: Boiler and pressure vessel inspection reports

DATES: 1970-

ARRANGEMENT: Alphabetical by name of business.

ANNUAL ACCUMULATION: 5.00 cubic feet.

DESCRIPTION:

This series contains the initial and subsequently scheduled boiler and pressure vessel inspection reports for the state of Utah. The reports are used to determine whether boilers and pressure vessels in publicly used buildings meet state regulations. Series information includes descriptions, names of inspectors, dates of inspections, billing information, monthly statistical reports, and all related correspondence. In addition, the files may contain Certificates of Competency issued by the Commission granting an individual the authority to inspect boilers and pressure vessels.

RETENTION:

Retain Retain 100 years.

DISPOSITION:

Destroy.

STATE RECORDS COMMITTEE STATUS:

This retention was approved by the State Records Committee on 10/01/2009.

FORMAT MANAGEMENT:

The retention and disposition information on this schedule applies to the record copy which can be in any format. The record copy can include different formats. Format management information provided here is for the purpose of managing records that are being either stored by or transferred to Utah State Archives.

Paper: For records beginning in 1970 through 2007. Retain in Office until microfilmed and then transfer to State Records Center. Retain in State Records Center for 100 years and then destroy.

Microfilm master: For records prior to and including 2007. Retain in State Records Center for 100 years and then destroy.

Microfilm duplicate: For records prior to and including 2007.

AGENCY: Labor Commission. Division of Boiler, Elevator, and Coal Mine Safety

SERIES: 21895

TITLE: Boiler and pressure vessel inspection reports

(continued)

Retain in Office for 100 years and then destroy.

Computer data files: For records beginning in 2007 and continuing to the present. Retain in Office for 100 years and then delete.

APPRAISAL:

Administrative

This appraisal is based on the agency's responsibility for approving boiler and pressure vessel safety in publicly used buildings.

PRIMARY CLASSIFICATION:

Public

AGENCY: Labor Commission. Division of Boiler, Elevator, and Coal Mine Safety

SERIES: 21870

3

TITLE: Boiler inspection manuals and texts

DATES: 1974-

ARRANGEMENT: Alphabetical by title

ANNUAL ACCUMULATION: 0.50 cubic feet.

DESCRIPTION:

This record series consists of manuals and texts which provide the specifications for boiler and pressure vessel installation and maintenance. The series is used as support documentation for the inspection of boilers and pressure vessels. The manuals document the standards used during the inspection process. Boilers are inspected annually or biennially by the Labor Commission. The boiler inspection report, series 82926 is maintained permanently.

RETENTION:

Retain 100 years.

DISPOSITION:

Transfer to the State Archives with authority to weed.

STATE RECORDS COMMITTEE STATUS:

This retention was approved by the State Records Committee on 06/01/1999.

FORMAT MANAGEMENT:

The retention and disposition information on this schedule applies to the record copy which can be in any format. The record copy can include different formats. Format management information provided here is for the purpose of managing records that are being either stored by or transferred to Utah State Archives.

Paper: Retain in Office for 1 year and then transfer to State Records Center. Retain in State Records Center for 99 years and then transfer to State Archives with authority to weed.

APPRAISAL:

Administrative Historical

This disposition is based on the administrative and historical value of this record to document the boiler inspection process to meet the requirements of UCA 34A-7-101 (1999). The 100 year retention period is based on the potential lifespan of a boiler.
