TITLE: Annual reports

DATES: 1994-

ARRANGEMENT: Chronological

ANNUAL ACCUMULATION: 0.20 cubic feet.

DESCRIPTION:

This series contains reports of activities from the previous year with information pertaining to the director's message, agency activities, land sales, archaeology, development, hunting, fishing, land management and finances. Also included in the report is a map showing trust lands located throughout the state. Duplicate copy is supplied by the State Library.

STATE RECORDS COMMITTEE STATUS:

This retention was approved by the State Records Committee on 07/01/1990.

FORMAT MANAGEMENT:

The retention and disposition information on this schedule applies to the record copy which can be in any format. The record copy can include different formats. Format management information provided here is for the purpose of managing records that are being either stored by or transferred to Utah State Archives.

Paper: Retain in Office until administrative need ends and then transfer to State Records Center. Retain in State Records Center for 25 years and then transfer to State Archives with authority to weed.

Paper copy: Retain in State Archives permanently with authority to weed.

APPRAISAL:

Administrative Fiscal Historical Legal This disposition is based on Utah State General Records Retention Schedule, Schedule 1, Item 25.

TITLE: Edit distribution report

DATES: 1985-

ARRANGEMENT: Chronological

ANNUAL ACCUMULATION: 9.20 cubic feet.

DESCRIPTION:

These bi-weekly reports are used to record financial transactions entered into the computer system. The computer generates the final distribution of funds paid for royalty agreements on state lands. This information is organized and distributed as COM (Computer-Output Microfiche) and as CPO (Computer print-out). The CPO includes the reports in legible form as well as in computer language so that the office can check for and correct errors in the system. This is done when the report is received. The CPO format has been produced since 1985. The COM format was first produced in 1990 and contains the report in legible form only. The record includes batch status report, batch number, effective date, and operator's name and number.

TITLE: Material permits

DATES: 1980-

ARRANGEMENT: Alphanumerical by material permit number

ANNUAL ACCUMULATION: 1.00 cubic foot.

DESCRIPTION:

These records document permits issued by the Division of Utah State Lands and Forestry and the School and Institutional Trust Lands Administration for the removal of ordinary sand and gravel from State Trust Lands. The permits are issued through a competitive application process to successful bidders after a review of applications by the agency. Some permits are issued "over-the-counter" on lands historically exploited for sand and gravel, upon approval by the Director. Included are production and settlement transmittals submitted by the permittee which detail period of production; commodity mined or produced; material permit number; name of permittee; quantity mined in tons or cubic yards; royalty details; purchase amount for the commodity; signature, title, and contact information for individual or company representative submitting the transmittal. Also included are applications for permits, permit amendments and adjustments, copies of checks, lease and permit approval details, correspondence and copies of public notice.

Paper copy: Retain in Office until administrative need ends and then destroy provided record has been scanned for electronic retention.

Microfilm duplicate: For records beginning in 1919 through 1984. Retain in Office permanently.

Microfilm master: For records beginning in 1919 through 1984. Retain in State Archives permanently with authority to weed.

APPRAISAL:

Administrative Fiscal Historical

This disposition is based upon the records' documentation of the leasing of state land for mineral purposes. The records need to be preserved permanently since mining, drilling, and exploration are ongoing and the records prove current mineral rights. They also document what areas have been mined, explored, drilled, and/or leased and when, which is helpful to future leasing and historical research.

3

TITLE: Selected lands purchase agreement files

DATES: 1899-

ARRANGEMENT: Numerical by case file number.

ANNUAL ACCUMULATION: 3.00 cubic feet.

DESCRIPTION:

These are contracts between individuals and the State Board of Land Commissioners to purchase selected lands granted to the state by the federal government. These records continued to be created by succeeding agencies: the State Land Board, the Department of Natural Resources Division of State Lands and Division of State Lands and Forestry, and then the School and Institutional Trust Lands Administration. The Enabling Act, which authorized Utah statehood also granted to the state specified numbers of acres of land to support a variety of public institutions (Statutes at Large, Treaties, and Proclamations of the United States, vol. 28, chap. 188). These lands were to be sold and the money put in a permanent fund which would generate interest to support the specified institution. Granted land had to be selected by the state, approved by the federal government and then patented to the state. Each purchase agreement states that a certain named individual is making application to the agency for the selection of specifically described land. The person swears that he/she is a citizen of the United States and agrees to purchase the said land at a certain price once the lands have been selected by the State of Utah and a federal patent has been issued. The agreements specify the amount that will be paid for the land, the terms of payment, the amount of deposit, and verify that the land is not mineral in character. Information included in the agreements are the dates when the agreement was filed, when the land was selected and filed with the Salt Lake Land Office and when the selection was approved by the federal government. Other documents in each file may include correspondence between the agency and the prospective purchaser, correspondence between the agency and the United States Bureau of Land Management (BLM), maps, state selection lists, court documents if the land title was in dispute, copies of deeds or certificates of sale, and affidavits showing proof of publication notifying others that the agreement has been filed. If the purchaser does not verify native-born United States citizenship, the file will also contain documents proving naturalized citizenship. These records are critical to the agency's central function, and therefore must be accessible throughout the agency's existence.
