Utah code states that upon presentation, the county recorder shall record honorable discharges from the military, naval, or marine service of the United States, and any orders, citations, and decorations of honor relating to a person while in the military service of the United States. (Utah Code, 17-21-14, 2000). Military discharges contain a wide range of personal, as well as military service and discharge information. Most veterans had their discharges recorded soon after discharge. However, since a veteran could bring his discharge for recording at any time, years might have elapsed between the time of discharge and recording. This is particularly true for World War I veterans whose discharges are scattered throughout this series.

DESCRIPTION:

Mining records, which constitute a legal record, are kept by the county recorder for the purpose of monitoring and registering mining claims and operations. Mining records contain notices of location which provide the name of claim, locators, locations, legal description, and the mining district; proofs of labor which record the work performed at each mine annually; and deeds which record information affecting the title to the mining property. Until the law changed in 1897 mining districts in Utah had the option of electing their own mining district recorder. Many of the larger districts within Utah chose to elect their own recorders while claims and other records within smaller mining districts or in unorganized areas were filed with the county recorder. Beginning in 1897, all mining records in the county were filed with the county recorder.
